

COUNTY OF LOS ANGELES—DEPARTMENT OF MENTAL HEALTH
Mental Health Services Act (MHSA) Three-Year Program And Expenditure Plan
Service Area Advisory Committee (SAAC) Review and Feedback of MHSA Programs

Dear Service Area Advisory Committee,

The Los Angeles County Department of Mental Health is in the process of completing the MHSA Three-Year Program and Expenditure Plan. This questionnaire serves as a way for the Service Area Advisory Committee (SAAC) to provide input into a review of the MHSA plans implemented in the Service Area and to make recommendations on the Department's next 3 Year MHSA Program and Expenditure Plan.

Please review the following information in order to respond to the questions:

1. MHSA Program Overview, including outcomes, at the Countywide and Service Area Levels: Outcome data encompasses Prevention and Early Intervention (PEI), Community Services and Supports (CSS) and Innovation (INN).
2. Service Continuum Descriptions for Children, Transition-Age Youth (TAY), Adults and Older Adults at the Countywide Level: Each Service Continuum describes a set of MHSA-funded and non-funded programs that aim to serve individuals from prevention, early intervention to intensive services for each age group. The table also contains, at the very bottom, a list of gaps and issues identified by the System Leadership Team (SLT).

As you formulate answers to each question, consider the following principles when thinking about each program:

1. Does it adequately outreach, engage and serve underserved populations in your Service Area, including individuals from under-represented ethnic populations?
2. Does it adequately outreach, engage and serve unserved populations in your Service Area?
3. Does it enhance services to unserved and underserved individuals with a mental illness or serious emotional disturbance?
4. Does it adequately manifest the goals of recovery and resiliency?

Email or scan completed feedback to Debbie Innes-Gomberg at DIGomberg@dmh.lacounty.gov

INNOVATION

MHSA Innovation programs are time-limited opportunities to engage in learning. Innovative projects focus on one of the following:

- a. Introduces a mental health practice or approach that is new to the overall mental health system.
- b. Makes a change to an existing practice in the field of mental health, including but not limited to application to a different population.
- c. Introduces a new application to the mental health system of a promising community-driven practice that has been successful in non-mental health contexts.

MHSA Innovation programs have one or more of the following criteria as their primary focus:

- a. Increasing access to mental health services, including to underserved populations.
- b. Increasing the quality of mental health services, including better outcomes.
- c. Promoting interagency collaboration related to mental health services and supports.

If you Service Area Advisory Committee has a recommendation for a future Innovation Project that meets the above criteria, please complete the table below:
